NOTES

3

1 The planting periods in red above, show the range in which we can plant.

Planting does not need to start on the first date shown, rather we need to aim for planting at some time during these periods.

We need to aim for planting at some time during these periods.

Notwithstanding the comments above, for Nerine Bowdenii and Crocus specious, the sooner we plant, the sooner we get flowers in 2021.

2 To make the programme easier to view/print,:

A flowering periods in 2022 have been shown outlined in red and in italics

B grass cuts for 2022 have been added and outlined in red and in italics

Tickenham Field Fluorescent Acclivity Project 2021

Methodology

- 1. Agree the scheme
- 2. Publicise in:
 - a. Tickenham Village Parish Magazine
 - b. Tickenham Village website
- 3. Collate pledges and donations
- 4. Call in donations and obtain best prices and purchase/procure:
 - a. Bulbs
 - b. Bulb planters
 - c. Grass cutting over the first 2 years
- 5. Implement first grass cut in late April 2021 to cut all of the bank except those areas where existing daffodils are showing near the hedges either side of sleeper steps and new wooded trees to west of MUGA (on North facing bank)
- 6. Mark off the 14 x 1.8 metre sections of the bank, 7 on either side of the steps. Suggest marking off is done by coloured rope (any colour that stands out) interweaved vertically in the wire fence to the MUGA. These will act as permanent "dividers" showing the different areas of the bank into which different bulbs have been planted.
- 7. Call in work pledges to:

| PLANT | PERIOD | SECTION |
|-----------------|----------------|-------------------|
| Nerine Bowdenii | Early May 2021 | West 2 and East 2 |

- 8. Implement second grass cut in late June 2021 and cut all of the bank.
- 9. Call in work pledges and:

| PLANT | PERIOD | SECTION |
|----------------------------|------------------------|---------------------|
| Crocus specious | July/August 2021 | West 3 and East 3 |
| Construct low picket fence | Pre-planting bluebells | East side of East 1 |
| PLANT | PERIOD | SECTION |
| Bluebells | August 2021 | West1 and East1 |

- 10. Implement third grass cut in late August 2021 and cut all of the bank except sections West 2 and 3 and sections East 2 and 3
- 11. Call in work pledges and:

| | PLANT | PERIOD | SECTION | |
|---|-----------------------------|----------------------|-------------------|----------------------------|
| | Cyclamen hederifolium | | West 5 and East 5 | |
| | Daffodils | Early September 2021 | West 7 and East 7 | |
| | Crocus biflora "Blue Pearl" | | West and East 4 | Section half nearest steps |
| 2 | Call in work pledges and | | | |

12. Call in work pleages and:

| PLANT | PERIOD | SECTION |
|---------------------------------|--------------------|-------------------|
| Camissia leichtlinii | Early October 2021 | West G and East G |
| A all in a surplice lada as and | | |

13. Call in work pledges and:

| PLANT | PERIOD | SECTION | |
|-----------|---------------------|-----------------|----------------------------------|
| Snowdrops | Early November 2021 | West and East 4 | Section half furthest from steps |
| | | | |

- 14. Implement grass cut in late April 2022 to cut sections 2, 3 and 5.
- 15. Implement grass cut in mid July 2022 to cut all of the bank
- 16. Implement grass cut in late September 2022 to cut section 1, 4, 6 and 7.
- 17. In later years, continue the above grass cutting regime which means that all sections of the grass bank are cut twice in a year, while, allowing the bulbs to flower and grow, putting strength back into the bulbs for the following year. This allows the bulbs to increase and for seeding to take place so that bulbs naturalise (spread) across the area of the bank.
